Dear Mr Corcoran

STATEMENT OF EXPECTATIONS 2020-22 FOR THE VICTORIAN INSTITUTE OF TEACHING

I am pleased to provide you with the Statement of Expectations (SOE) for the Victorian Institute of Teaching (VIT). This SOE replaces the SOE 2018-20 and applies for the period 2020-22, or until otherwise amended.

Improving the administration and enforcement of regulation

This SOE sets out my expectations of the VIT's contribution to the Government's program to reduce red tape affecting teachers, initial teacher education providers, schools and communities by promoting greater efficiency and effectiveness in the administration and enforcement of regulation. It also outlines my expectations on broader improvements for the VIT's performance.

As Minister for Education, I am responsible for administering the *Education and Training Reform Act 2006* (the Act), which provides for a high standard of education and training for all Victorians by setting out the functions and powers of the VIT. This SOE sets out my expectations of how the VIT will improve the efficiency and effectiveness of its regulatory activities and should be read within the context of the objectives, obligations and functions outlined in these Acts (as amended).

I acknowledge the achievements of the VIT over the period of the 2018-20 SOE, including implementing the recommendations of the VIT Review. Key achievements included upgrading IT systems, implementing a new Committee structure, developing new policies, introducing a Principal Practitioner position, improving relationships with co-regulators and incorporating child safety as new legislative function.

This SOE outlines key governance and performance objectives and targets aimed at improving the administration and enforcement of regulation and thus reducing its cost impact on teachers, initial teacher education (ITE) providers, schools and the community.

Improvements and targets

I have identified key elements of governance and operational performance where there are opportunities for the VIT to reduce the administrative burden on teachers and ITE providers. In developing the SOE expectations and performance measures and targets I have considered the context of regulating the teaching profession and consultation between the Department and the VIT.

SOE Framework element of good regulatory practice	SOE Expectations	Performance measures and targets
Timeliness Timeliness in this context refers to resolving regulatory decisions, issues and approvals in a timely manner, to avoid unnecessary administrative costs for regulated parties. Reporting

I expect the VIT to respond to this SOE, outlining the activities it will undertake to achieve these expectations. The VIT should publish the SOE and the VIT's response on its website within three months.

I expect the VIT to incorporate this SOE into its corporate planning processes and systems to monitor its performance in achieving the SOE. I expect the VIT to report on its progress implementing the expectations, activities and performance measures and targets in its Annual Reports.

I look forward to seeing the VIT continue to work towards achieving best practice in its critical role as the regulator of teachers in Victoria.

Yours sincerely
